

## FOUNDATION FOR METROWEST

June 2017

# Working Together for Impact

Dear Friends,

I am honored to share with you that the Foundation for MetroWest **has earned accreditation through the National Standards program of the Council on Foundations**. This certification demonstrates our commitment to sustainability, accountability and excellence in our work, and to our community.

“Meeting the National Standards benchmarks is a rigorous, comprehensive process,” said Randy Royster, Chair of the Community Foundations National Standards Board. “This accreditation is a significant accomplishment that indicates Foundation for MetroWest demonstrates a commitment to

transparency, quality, integrity and accountability as it carries out its mission.”

As affirmed by the National Standards program, we work tirelessly with local nonprofits, students, individuals, and businesses to strengthen our community. What does that look like? In 2016, it meant educating 245 students in philanthropic literacy, distributing \$1.3 million in grants and investing \$81,400 in professional development hours through nonprofit workshops.

I invite you to learn more about us and our impact in our newly published 2016 Annual Report.
